

## Ascend

Administer and manage the complete apprenticeship life-cycle with a single, structured solution designed to support the complexities of apprentice plans.

**Ascend - Apprentice Management™** provides an easy way for your business to plan and manage required apprentice development activities, including on-the-job training, classes at a university or trade school, government or regulatory agency required training, corporate training, and job rotations. Ascend delivers a single solution to manage the access, delivery, data, and complex reporting requirements to track Apprentice Programs efficiently and securely.

### Simplify Operations

Supervisors efficiently and effectively manage these programs for compliance and operational needs.

### Stay on Track

Program Managers, Supervisors and Support access applicable view of plans and share the apprentice plans and schedules with on-site supervisors and apprentices.

### Drive Engagement

Program Managers, Supervisors and Support receive key insights needed on complete programs, teams, and individual apprentices to drive success. Apprentices receive visibility into individual plans for work and study

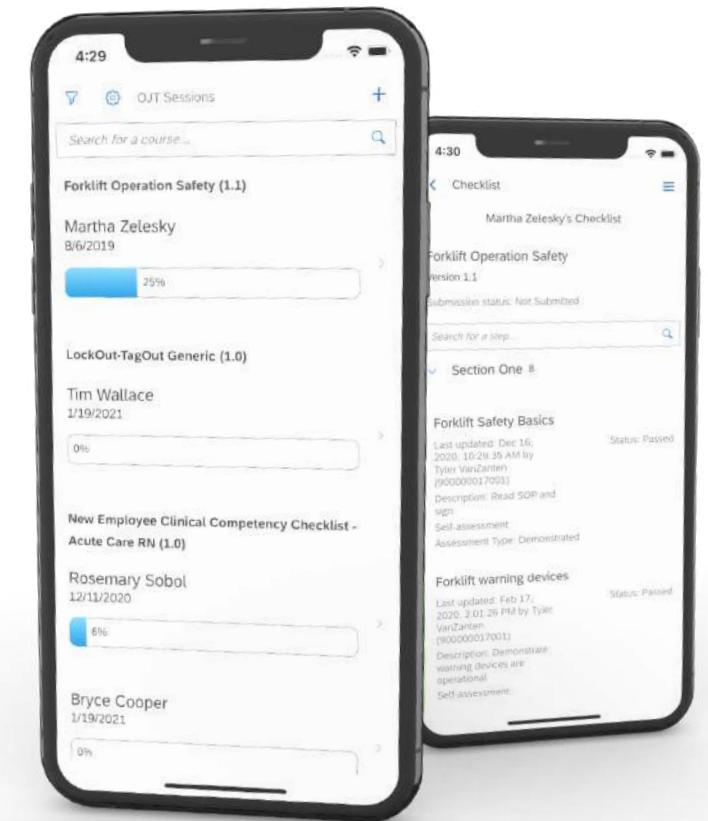

### Deliver Effortless Reporting

## How it Works

Administer and manage the complete apprenticeship life-cycle with a single, structured solution designed to support the complexities of apprentice plans.

Ascend -Apprentice Management™ provides an easy way for your business to plan and manage required apprentice development activities, including on-the-job training, classes at a university or trade school, government or regulatory agency required training, corporate training, and job rotations.
