OBSERVE
OJT CHECKLIST
BY **HC**Labs

Observe – OJT Checklist

Support your organization's ability to reach desired training objectives consistently with Observe, a mobile-first solution that simplifies the administration and management of on-job training programs. Observe helps consistently deliver standardized training programs and supports associated compliance requirements.

On the Go

Observe captures program metrics and supports customized interdependencies and groupings. The solution runs robustly on the Android and iOS platforms and is built on our proven integration technology.

Simplify

Author and manage reusable, structured OJT Checklists, including tailored step dependencies and sectioned structures.

Stay on Track

Observe guides trainers and observers through a checklist to easily advance an OJT. Multiple observers can assist and record progress.

Drive Engagement

Clearly defined roles drive access and provide the ability to leverage qualified and certified trainers and observers to participate in training across the organization.
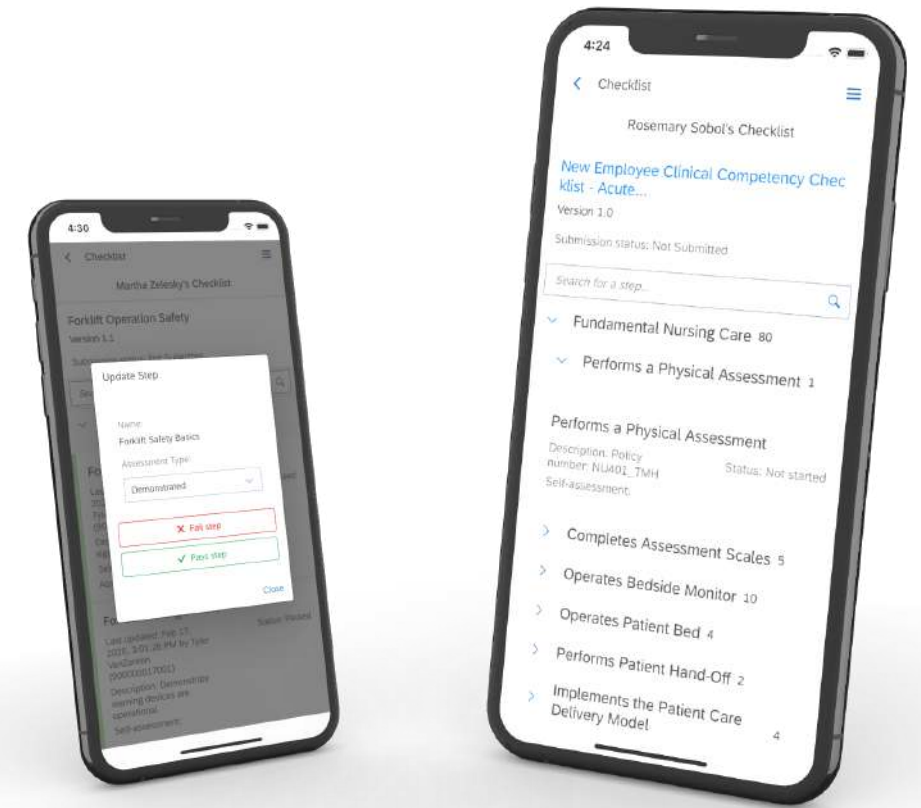

Deliver Effortless Reporting

Access comprehensive reports for training compliance monitoring and view employee- and department-level dashboards.
